Dear Sir/Madam,

## District Heating System Opportunity for Properties in Rampton

Rampton & Woodbeck Parish Council held an open day at the Village Hall on Sunday 21st October to present a potential idea for a biomass powered district heating scheme. This project brings several possible benefits, including significantly reduced heating hot water costs and carbon footprints for every connected household or business.

If you were not able to attend our open day, there is still time to express your interest in this project.

As part of the grant received to undertake the study into the system, we are required to ensure we have given each householder an opportunity to show an interest or comment on the district heating system.

**There is no cost to connect to the heating scheme, and at this point there are no contracts or legal documents to sign. We are only seeking to gauge the level of interest** in order to ascertain if the Council can progress this community energy project further using our grant and working alongside our development consultants.

Further information on the project can be obtained by visiting our website <https://www.ramptonandwoodbeck-pc.gov.uk/district-heating-system.html> Alternatively, if you have any specific questions you cannot find an answer to, or would like an informal chat, please speak with consultants Chris McDonagh 07889 514966 or Stuart Robinson 07565 652770.

Your support is greatly appreciated, and we look forward to hearing from you. Please would you either complete and return the enclosed slip to our village hall post box, this is located outside next to the door to Rampton Village Hall door or email [clerk@ramptonandwoodbeck-pc.gov.uk](mailto:clerk@ramptonandwoodbeck-pc.gov.uk) stating you wish to receive updates and more information on this plan or comment on our Facebook page.

Yours Sincerely

Ed Knox  
On behalf of Rampton & Woodbeck Parish Council.
